## Cedarwood Anise

Licorice is well known for it's skin benefits and is included in the finest facial creams. Cedarwood has skin benefits as well. The scent is a delightful combination, with a strong hint of tangerine.

## Lavender Rosemary

Delightfully herbal blend of lavender, rosemary, petitgrain essential oils, this shampoo is blended to appeal to those who love naturally green and herbal scents. Rosemary is reknown for hair enhancing properties.

## Peppermint Eucalyptus

Skin soothing because of the cooling effects of peppermint. It is strong enough to give the skin a sensation of cooling and tingling. For irritated skin, this can be helpful, but the effect may take getting used to.

## Oatmeal Milk & Honey

Our only fragrance oil blend, this shampoo is enhanced with oatmilk. A very delicious and mild scent, it is a favorite for many people, whom love it for their own hair, and don't wish to share it with their dogs.
